Changes for this release

Description of change	Images	Styles	Scripts	Includes	Template
Update copyrights year via JavaScript	-	-	Yes	Yes	-
Enhanced responsive layout	-	Yes	-	Yes	-
Added functionality to enable Google invisible recaptcha to any form	-	-	Yes	-	-
Enabled Google invisible recaptcha on footer feedback form	-	-	-	Yes	-
Fixed share dropdown in mobile view	-	Yes	-	-	-

Update copyrights year via JavaScript

1. Copyrights year range in the footer, was to be updated manually every year. It now uses JavaScript to fetch current year and update the date range
2. Added a span element 'qg-copyright-owner' where agencies/department can update to reflect copyright ownership. This has been added to comply with CUE guidelines.

HTML changes to /assets/includes-(local/cdn)/footer/footer-legals.html

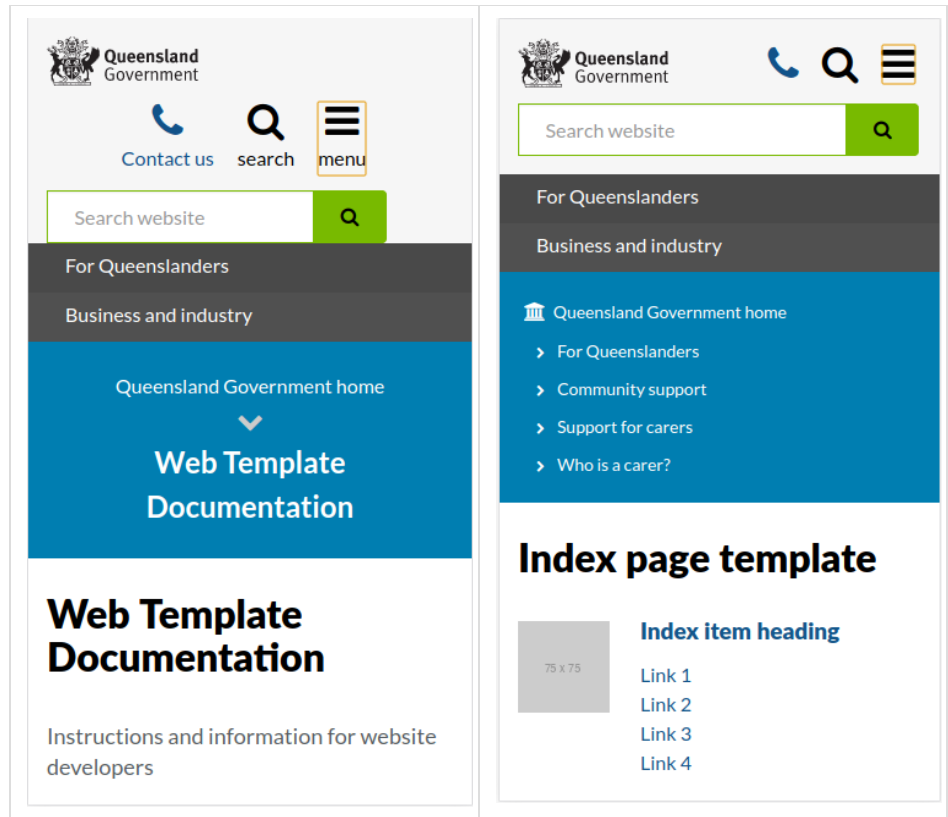

```
<p class="qg-copyright">© The State of Queensland 1995-2018<span id="qg-copyright-owner"></span><span id="qg-copyright-daterange"></span></p>
```

```
<p class="qg-copyright">&copy; The State of  
Queensland <span  
id="qg-copyright-owner"></span><span  
id="qg-copyright-daterange"></span></p>
```

Enhanced responsive layout

Enhanced responsive layout by aligning icons, a hiding search box by default which can be displayed by clicking upon search icon, and menu to have matched of typography.

Before	After
--------	-------

Added functionality to enable Google invisible recaptcha to any form

Added functionality to enable captcha to check and filter bots before form submission. To enable, add data attribute to form element as shown below

HTML element

```
<form action="" data-recaptcha="true">
```

Enabled Google invisible recaptcha on footer feedback form

Added attribute **data-recaptcha="true"**, to the footer feedback form which enables the script to stop spam bots using [invisible recaptcha](#)

HTML changed:

'/home/ganapav/git/qg-web-template/release/(template-cdn-ssi/template-local-ssi)/assets/includes-cdn/content/options.html'

```
<form id="qg-page-feedback-form"
      method="post "

      action="https://www.smartservice.qld.gov.au/services/submissions/email/feedback/feedback"
      class="form"
      data-recaptcha="true">
```

Fixed share dropdown in mobile view

Share drop down styles were not applied in mobile view. Fixed the same
